

ARTICLES PUBLISHED IN WESTON ENGINEERING NOTES

| ARTICLE NO. | TITLE | VOLUME NO. | ISSUE NO. |
|----------------|--|---------------|--------------|
| 1 | The Galvanometer and the Bridge—J. H. Miller..... | 1 | 1 |
| 2 | Copper Oxide Rectifiers as Used in Measuring Instruments—J. H. Miller..... | 1 | 1 |
| 3 | Shock of Impact Testing Mechanisms—A. T. Williams..... | 1 | 1 |
| 4 | Conduction Grid Current Megohmmeter—O. J. Morelock..... | 1 | 2 |
| 5 | The Single Point Potentiometer—A. G. Smith..... | 1 | 2 |
| 6 | Special Test Set for Relays—E. R. Kebbon..... | 1 | 2 |
| 7 | Weston Airway Hazard Marker Illumination Control Relay—A. H. Lamb..... | 1 | 2 |
| 8 | Thermocouple Ammeters for Very High Frequency—J. H. Miller..... | 1 | 2 |
| 9 | Weston's Cadmium Cell—F. X. Lamb..... | 1 | 3 |
| 10 | Weston Vacuum Type Thermoelement—M. C. Kunz..... | 1 | 3 |
| 11 | Simplified Bridge Analysis—J. H. Miller..... | 1 | 3 |
| 12 | A Complete Direct Reading Gm Tube Tester—O. J. Morelock..... | 1 | 4 |
| 13 | Differential Instruments and Relays—A. H. Lamb..... | 1 | 4 |
| 14 | Guns Aimed With the Aid of Thermometers—A. H. Lamb..... | 1 | 4 |
| 15 | The Weston Master II Universal Photographic Exposure Meter—A. T. Williams..... | 1 | 5 |
| 16 | A Variable Ratio Current Transformer—J. H. Miller..... | 1 | 5 |
| 17 | A Method of Panel Mounting Weston Models 430-432-433—J. H. Miller..... | 1 | 5 |
| 18 | Blind Approach Indicators—W. H. Skidmore-E. W. Hoyer..... | 1 | 6 |
| 19 | Mechanical Erosion of Thermowells and Thermometer Stems—A. H. Lamb..... | 1 | 6 |
| 20 | Instruments for Frequency Modulation Monitors—A. G. Smith..... | 1 | 6 |
| 21 | A Bridge for High Resistance, High Voltage Measurements—J. H. Miller..... | 1 | 6 |
| *22 | Modern Thermometry—A. H. Lamb..... | 2 | 1 |
| *23 | The Weston Industrial Circuit Tester—O. J. Morelock..... | 2 | 1 |
| 24 | The Measurement of Reactive Power—A. F. Wolferz..... | 2 | 2 |
| 25 | Special Load Circuits for Use With the Weston Photoelectric Cell—R. W. Gilbert..... | 2 | 2 |
| 26 | The VU Indicator—A. G. Smith..... | 2 | 2 |
| 27 | The Weston Photographic Analyzer—A. T. Williams..... | 2 | 3 |
| 28 | Weston Vacuum Thermoelements—M. C. Kunz..... | 2 | 3 |
| 29 | Organizing an Electrical Instrument Standardizing Laboratory—J. B. Dowden..... | 2 | 3 |
| 30 | A New Humidity Indicator—A. H. Lamb..... | 2 | 4 |
| 31 | Absolute Units Replace International Units Next Year—W. N. Goodwin, Jr..... | 2 | 4 |
| 32 | Organizing an Electrical Instrument Standardizing Laboratory—J. B. Dowden..... | 2 | 4 |
| 33 | Methods for Determination of Resistance of Power Sources—J. H. Miller..... | 2 | 4 |
| 34 | The New Weston Engineering Administration Building—J. H. Miller..... | 2 | 4 |
| 35 | Electrical Resistance Alloys—W. N. Goodwin, Jr..... | 2 | 5 |
| 36 | The Effect of Harmonics on A-C Ammeter and Voltmeter Indications—R. F. Estoppey | 2 | 5 |
| 37 | Wheatstone Bridge—List of Circuit Equations—W. N. Goodwin, Jr..... | 2 | 5 |
| 38 | Distinguished Italian Visitors at the Weston Laboratories—W. N. Goodwin, Jr..... | 2 | 5 |
| 39 | Engineering-Administration Building Housewarming—October 24, 1947—J. H. Miller..... | 2 | 6 |
| 40 | Thermal Problems Relating to Measuring and Control Devices—W. N. Goodwin, Jr..... | 2 | 6 |
| 41 | The Weston Electronic Analyzer—O. J. Morelock..... | 2 | 6 |
| 42 | Chemical Corrosion of Thermometer Stems, Thermowells, Separable Sockets, and Associated Apparatus—A. H. Lamb..... | 2 | 6 |
| *43 | A Sensitive Direct Current Electrical Integrator—R. W. Gilbert..... | 3 | 1 |
| *44 | Weston Model 807 Light Integrator for the Photomechanical Industries—A. T. Williams..... | 3 | 1 |
| *45 | Services for the Weston Engineering Laboratories—F. X. Lamb..... | 3 | 1 |
| *46 | Historical Background of the Photoelectric Cell—A. H. Lamb..... | 3 | 2 |
| *47 | Thermal Problems Relating to Measuring and Control Devices—Part II— W. N. Goodwin, Jr..... | 3 | 2 |
| *48 | Standardized Test Benches Used in the Weston Engineering Laboratories—F. X. Lamb | 3 | 2 |
| *49 | Electrical Networks for Zero Suppression—M. C. Kunz-H. Berring..... | 3 | 3 |
| *50 | The Measurement of Reactive Power—Part II—Three-Phase Circuits—A. H. Wolferz | 3 | 3 |
| *51 | A Discussion of Contact Making Relays—Part I—A. H. Lamb..... | 3 | 4 |
| *52 | Thermal Problems Relating to Measuring and Control Devices—Part III— W. N. Goodwin, Jr..... | 3 | 4 |
| *53 | The New Model 856 Sealed Photocell—R. W. Gilbert..... | 3 | 5 |
| *54 | A Discussion of Contact Making Relays—Part II—A. H. Lamb..... | 3 | 5 |
| *55 | The Weston Model 808 Industrial Integrator—R. W. Gilbert..... | 3 | 5 |
| *56 | Potential and Current Transformers and Standardizing A-C Voltmeters and Ammeters—R. F. Estoppey | 3 | 5 |

* Back Copies Available.

(Continued on other side)

| ARTICLE NO. | TITLE | VOLUME NO. | ISSUE NO. |
|-------------|--|------------|-----------|
| 57 | Weston Standard Cells and Their Applications—F. X. Lamb..... | 3 | 6 |
| 58 | Thermal Problems Relating to Measuring and Control Devices—Part IV— W. N. Goodwin, Jr..... | 3 | 6 |
| 16 | R-C Arc Suppression of Inductive Relay Circuits—R. W. Gilbert..... | 3 | 6 |
| *59 | The Weston Core Magnet System—J. H. Miller..... | 4 | 1 |
| *60 | Organizing an Electrical Instrument Standardizing Laboratory—J. B. Dowden..... | 4 | 1 |
| *61 | Use of Precision A-C Instruments at Audio Frequencies—R. W. Gilbert..... | 4 | 1 |
| *62 | The Weston Magneto-Generator—W. N. Goodwin, Jr..... | 4 | 1 |
| 63 | Electric Tachometers—A. H. Wolferz..... | 4 | 2 |
| 64 | Organizing an Electrical Instrument Standardizing Laboratory—Part IV—J. B. Dowden..... | 4 | 2 |
| 65 | Measurement of Television Screen Brightness—R. W. Gilbert..... | 4 | 2 |
| 66 | Thermal Problems Relating to Measuring and Control Devices—Part V— W. N. Goodwin, Jr..... | 4 | 2 |
| *68 | Densitometers and Their Use in Technology, Medicine and Commerce—A. T. Williams..... | 4 | 3 |
| *69 | Meter Calibration With the Variac (GENERAL RADIO EXPERIMENTER)..... | 4 | 3 |
| *70 | Thermal Problems Relating to Measuring and Control Devices—Part V—Continued— W. N. Goodwin, Jr..... | 4 | 3 |
| 71 | Notes on Damped Motion as Typified by the Moving System of an Electrical Measuring Instrument—J. H. Miller..... | 4 | 4 |
| 72 | Organizing an Electrical Instrument Standardizing Laboratory—Part V—J. B. Dowden..... | 4 | 4 |
| 73 | Thermal Problems Relating to Measuring and Control Devices—Part VI— W. N. Goodwin, Jr..... | 4 | 4 |
| 74 | A Photoelectric Light Recorder—A. T. Williams..... | 5 | 1 |
| 75 | Thermal Problems Relating to Measuring and Control Devices—Part VII— W. N. Goodwin, Jr..... | 5 | 1 |
| 76 | Tachometers for Hazardous Locations—A. H. Wolferz..... | 5 | 1 |
| 77 | Luminance Measurements on Television Picture Tubes—A. T. Williams..... | 5 | 2 |
| 78 | Thermal Problems Relating to Measuring and Control Devices—Part VII—Continued— W. N. Goodwin, Jr..... | 5 | 2 |
| *79 | The Measurement of Moisture in Lumber—L. Van Blerkom-O. J. Morelock..... | 5 | 3 |
| *80 | Differential and Ratio Applications of Weston Relays—E. G. DeMott..... | 5 | 3 |
| *81 | An Alternator Field Temperature Indicator—L. W. Pignolet..... | 5 | 3 |
| *82 | The Measurement of Temperature for Volumetric Determination of Liquids in Storage Tanks—R. T. Pierce..... | 5 | 4 |
| *83 | Adjustment of Weston Switchboard Wattmeters and Varmeters—R. F. Estoppey..... | 5 | 4 |
| 84 | The Weston Model 1411 Inductronic D-C Amplifier—R. W. Gilbert..... | 6 | 1 |
| 85 | Thermal Problems Relating to Measuring and Control Devices—Part VIII— W. N. Goodwin, Jr..... | 6 | 1 |
| *86 | A Power Factor Meter for Unbalanced Polyphase Systems—R. F. Estoppey..... | 6 | 2 |
| *85 | Thermal Problems Relating to Measuring and Control Devices—Part VIII—Continued— W. N. Goodwin, Jr..... | 6 | 2 |
| *87 | Reactive Damping of the Weston Model 1411—Inductronic D-C Amplifier— R. W. Gilbert..... | 6 | 2 |
| *88 | Photocell Range Network for Use With Weston Inductronic D-C Amplifier— R. W. Gilbert..... | 6 | 2 |
| *89 | Instrument Testing Equipment for Military Requirements—E. G. DeMott..... | 7 | 1 |
| *85 | Thermal Problems Relating to Measuring and Control Devices—Part IX—Continued— W. N. Goodwin, Jr..... | 7 | 1 |
| *90 | 125 Years of Ohm's Law—H. Berring..... | 7 | 2 |
| *91 | Indicating Instruments for Use Under Severe Conditions—F. X. Lamb..... | 7 | 2 |
| *92 | Aging of Standard Cells—F. X. Lamb..... | 7 | 2 |
| *93 | A New Weston Sensitrol Relay—J. H. Miller..... | 8 | 1 |
| *94 | The Inductronic Fluxmeter—R. W. Gilbert..... | 8 | 1 |
| *85 | Thermal Problems Relating to Measuring and Control Devices—Part IX—Continued— W. N. Goodwin, Jr..... | 8 | 1 |
| *95 | Bearingless Tachometer Generator Using a Frequency Responsive Network— A. H. Wolferz and J. A. Heacock..... | 8 | 2 |
| *96 | A Single Point Ammeter Using a Current Transformer—A. T. Williams..... | 8 | 2 |
| *97 | The Weston Model 1446 Inductronic Control Unit—R. W. Gilbert..... | 8 | 2 |
| *98 | A Linear Scale Feeder Ammeter—J. H. Miller..... | 8 | 2 |

* Back Copies Available.
